<https://github.com/Flying-S-Ranch> | Portfolio: <https://incandescent-bombolone-0bd890.netlify.app>

Junior full stack web developer eager to learn new skills and work with others to complete projects. Background in church ministry with strong writing, design, and research skills. Recent graduate of a full stack web development certificate program from Columbia University with emphasis on JavaScript and Agile methodologies. Interested in learning new programming languages and solving real-world problems with creativity, perseverance, and teamwork.

Technical Skills

Frontend: HTML5, CSS, JQuery, Javascript, Bootstrap

Backend: MySQL, MongoDB, Express, ReactJS, Node

Projects

“Untitled” Art App | <https://github.com/vlexaega/project3-untitled> |

Team Member

<https://untitled-art-app-b560d4f5fa59.herokuapp.com/>

- This app is a platform for artists to collaborate, display work and sell art
- Artists can create a profile and upload images of their art, with choices to offer art for sale and to allow critique. I worked with team members to contribute to the forms and styling on the front end, and the queries and mutations on the back end
- Tools/Languages: React, HTML, JavaScript, Tailwind, MongoDB, Express, NodeJS

LegendSmith | <https://github.com/branchwag/character-generator> |

Team Member

<https://legendsmith-77384eb64fff.herokuapp.com/login>

- This app generates fantasy character names and backstories based on user input
- Users fill out a form to select character attributes, and these selections are used to fill in a ChatGPT prompt to generate a corresponding name and backstory. I was primarily responsible for the back-end routes in MySQL.
- Tools/Languages: MySQL, JavaScript, Bootstrap, HTML, NodeJS

Recyclator | <https://github.com/croberts27/recyclator> | <https://croberts27.github.io/recyclator/>

Team Member

- This app encourages recycling by providing straightforward information, recent recycling news, and local resources based on user location
- Users can search for information on how to recycle various items, see a map of local government offices based on their location, and view recent news related to recycling
- Tools/Languages: HTML, CSS, JavaScript, Bulma

Work Experience

OIKOS Community Church

Gospel Worker for Resources

January 2018 - February 2023

Erdington, Birmingham England

- Create quality resources for church use, including the research, writing, and design of children's lessons and adult Bible studies (beginning in 2019)

- Communicate relevant information and upcoming dates with church members through a weekly email (beginning in 2020)
- Assist with administrative work as needed, including the creation of flyers and posters, proofreading, and the preparation of annual events

Buzz Fence Company

February 2017 - December 2017

Office Worker

Fort Worth, Texas

- Digitize company records by scanning paper documents and organizing them into easily accessible computer files
- Communicate fence installation dates with customers by phone and email
- Complete line location requests so that utility and power lines were properly marked before fence installations could begin

Education

Columbia University, New York
Full-Stack Bootcamp Certificate

August 2023

Dallas Theological Seminary, Dallas TX
Master's Degree in Theology

May 2016

Texas A&M University, College Station TX
Bachelor's Degree in History

May 2011

Other Experience

- Familiarity and ease with the computer program Affinity Designer
- Extensive intercultural experience gained over five years living abroad
